7. STATEMENT OF REASONS

Description of the development	
Material Change of Use for a Dwelling House	
Reasons for Decision	
<p>a) Assessment of the development against the relevant planning scheme codes and planning scheme policies demonstrates the proposed development will not compromise the viability of both existing and future extractive industry uses, and operations are protected from the intrusion of incompatible development; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	
The development was assessed against the Extractive Resources Overlay Code and Bushfire Hazard Overlay Code.	
Compliance with assessment benchmarks	
The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Extractive Resources Overlay Code	<p>PO1</p> <p>The proposed development is not taken to constrain existing or future extractive industries and therefore complies with AO1.1 '(c)'. A response to Performance Outcome (PO) 1 is not required. Further justification relating to compliance with</p>

	<p>AO1.1 (c) is provided herein.</p> <p>Peak Hill Quarry on the southern side of Yeppoon Road is the mapped Key Resource Area (KRA). Yeppoon Road is a State-controlled road and at this location is four (4) lanes, which are separated by up to a 100 metre wide vegetated median strip. The approximate distance between the nearest Quarry operation area and the proposed building envelope is approximately 450 metres. There are three (3) existing dwelling houses on the northern side of Yeppoon Road, which are nearer to the Quarry than the proposed building envelope.</p> <p>A Noise and Air Quality Assessment was provided in support of a 2015 development application seeking development approval for an increase in scale and intensity of the quarry, which was approved subject to conditions (D/108-2015). Section 7.0 of the Assessment concluded the Quarry is:</p> <p><i>'...well buffered to sensitive receptors by both distance and topographic screening...'</i></p> <p>And;</p> <p><i>'The continuation of site operations would result in extraction and processing being located in an adjacent to areas that are either currently worked or have been worked in the past. On this basis, future activities on the site will be located no closer to off-site sensitive receptors and shall be provided with shielding from the existing topography. Thus future operations will have no greater potential amenity impact that current or past</i></p> <p>It is noted there is limited or no potential for the quarry pit and operation area to extend closer toward the proposed building envelope than it already is due to existence of Yeppoon Road and need to maintain a buffer to the low density residential area to the west.</p> <p>Therefore, on the basis the proposed building envelope is well buffered and located further from the Quarry activities than existing dwellings on the northern side of Yeppoon Road that were considered as part of a noise and air quality assessment, it is deemed the development will not constrain existing or future extractive industry activities, complying with AO1.1.</p>
	<p>PO2</p> <p>The proposed development does not comply with aspects of Performance Outcome (PO) 2 (a) and (b) because it involves a sensitive land use and will increase the number of people living within the separation area for resource/processing area.</p> <p>For the reasons outlined in response to Acceptable Outcome (AO) 1.1, the future productive capacity and viability of both existing and future extractive industry uses and operations are not compromised by the addition of a sensitive use within the separation area. Further, adverse impacts to a Dwelling House within the building envelope are unlikely.</p> <p>Therefore, the proposed development is taken to comply with Overall Outcomes (2) (b) and (c).</p>
<p>Relevant Matters</p>	
<p>Not applicable to an assessable development application subject to code assessment.</p>	
<p>Matters prescribed by regulation</p>	
<ul style="list-style-type: none"> • The Rockhampton Region Planning Scheme 2015 (version 4.4); and • The common material, being the material submitted with the application.
