3. FURTHER DEVELOPMENT PERMITS REQUIRED

Please be advised that the following development permits are required to be obtained before the development can be carried out:

5. THE APPROVED PLANS

The approved development must be completed and maintained generally in accordance with the approved drawings and documents:

<u>Plan / Document Name</u>	<u>Prepared by</u>	<u>Date</u>	<u>Reference No.</u>	<u>Version / Issue</u>
Reconfiguration Plan	Capricorn Survey Group (CQ) Pty Ltd	21 November 2024	8226-03-ROL	C

6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the Planning Act)

In accordance with section 85(1)(b)(ii) of the *Planning Act 2016*, the development approval lapses if a plan for the reconfiguration that, under the Land Title Act, is required to be given to a local government for approval is not given to the local government within four (4) years after the approval starts to have effect, if not stated otherwise in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for a Development Permit for Reconfiguring a Lot (Two Lots into Three Lots and Access Easements)
Reasons for Decision	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Strategic Framework • Low Density Residential Zone Code • Access, Parking and Transport Code • Filling and Excavation Code

	<ul style="list-style-type: none"> • Landscape Code • Reconfiguring a Lot Code • Stormwater Management Code • Water and Sewer Code • Biodiversity Overlay Code • Coastal Protection Overlay Code • Flood Hazard Overlay Code • Steep Land Overlay Code 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Access, Parking and Transport Code	<p>PO3</p> <p>The proposed development does not comply with AO3.1 as the access driveway to the two rear lots does not meet the design specifications for driveways contained in the <i>Capricorn Municipal Development Guidelines</i>. Specifically, the design specifications do not allow multiple lots to utilise a single driveway.</p> <p>However, the vehicle movements associated with two rear lots are unlikely to compromise the safety or efficiency of the local road network. The number and type of vehicle movements would be similar to a dual occupancy use with a single vehicle crossover, which is not an uncommon scenario.</p>
	Reconfiguring a Lot Code	<p>PO8</p> <p>The proposed development does not comply with AO8.4 as the driveway length to the two rear lots exceed 40 metres. The length of the proposed driveway from Water Street is approximately 45 metres to Lot 14 and 65 metres to Lot 15.</p> <p>However, the width of the access and services easement (six metres within Lot 1 and seven metres within Lot 14) allows a five metre carriageway, which is considered suitable to allow two-way vehicle movements within the site and to the proposed lots. Conditions of approval have been recommended to this effect.</p>
Flood Hazard Overlay Code	<p>PO14</p> <p>The proposed development does not comply with AO14 because it results in the creation of an additional lot within the Flood Hazard Overlay. The Flood Hazard Overlay affects an approximate 1,900m² combined area at the rear of lots 14 and 15.</p> <p>The proposed development also does not comply with Overall Outcome (2) (f) of the Flood Hazard</p>	

		<p>Overlay Code because it results in the creation of additional lots in the Flood Hazard Overlay.</p> <p>However, the proposed development is considered to comply with the Strategic Framework as it relates to the 'Natural environment and hazards' theme and in particular the specific outcomes 'Natural hazards and climate change' element, which seeks to ensure the flood risk is managed in new development. Only part of the two rear lots is mapped as being affected by the flood hazard overlay and the developable area (i.e. excluding the flood hazard overlay and easements) of each lot exceeds 750m². A condition of approval has also been recommended requiring a drainage easement over the extent of the Flood Hazard Overlay. The drainage easement will ensure no further development occurs within the flood hazard areas.</p> <p>On this basis, it is considered that there is no increased risk to people or property from flooding as a result of the proposed subdivision.</p>
	Coastal Protection Overlay Code	<p>PO14</p> <p>The proposed development does not comply with AO14 because it results in the creation of an additional lot within the Coastal Protection Overlay. The eastern boundary of proposed lots 14 and 15, being the bank of Frenchmans Creek, is mapped as being a Medium Hazard area.</p> <p>However, the proposed development does comply with the Overall Outcomes of the Coastal Protection Overlay Code. Specifically, Overall Outcome (b) because future development on lots 14 and 15 are able to avoid the coastal hazard risk. The Coastal Overlay affects those parts of lots 14 and 15 contained within the drainage easement. Future dwelling houses within the resulting lots will be well separated from the hazard area.</p>
Relevant Matters	There are no relevant matters for the development application.
