7. STATEMENT OF REASONS

Description of the development	Material Change of Use for a Hardware and Trade Supplies and Operational Works for Advertising Devices (Wall Sign (x8) and Freestanding Sign (x3))
Reasons for Decision	a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on

	<p>the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>							
<p>Assessment Benchmarks</p>	<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Specialised Centre Zone Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; • Water and Sewer Code; • Advertising Devices Code; • Airport Environs Overlay Code.

The access into the building provided via double automatic doors, with the addition of two three-pane shop front windows, activates the front façade to the public space creating an accessible development for pedestrians and end users.</p> <p>Therefore, the proposed development is taken to comply with Performance Outcome 1 (PO1), as the proposed building has been designed to create a safe and pleasant, pedestrian-focussed environment.</p> </td> </tr> </table>		<p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.</p>		<p>Assessment Benchmark</p>	<p>Reasons for the approval despite non-compliance with benchmark</p>	<p>Specialised Centre Zone Code</p>	<p>PO1</p> <p>The proposed development does not comply with Acceptable Outcome (AO) AO1.1, which requires ground floor level facades built to the street have: (b) tenancies no wider than 10 metres or vertical articulation which punctuates the façade at least every 10 metres; and (c) display space or transparent windows or doors for a minimum of sixty-five (65) per cent of their frontage area.</p> <p>Despite the non-compliance with AO1.1 (b), the proposed awning extending over the main entry point of the building on the eastern wall provides a horizontal break that punctuates the façade, creating a more-human scale feel by imposing a ceiling height.</p> <p>The non-compliance with AO1.1 (c) can be justified as the proposed building provides visible pedestrian access directly from the car-parking, which fronts the primary road frontage. <p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.</p>								
<p>Assessment Benchmark</p>	<p>Reasons for the approval despite non-compliance with benchmark</p>							
<p>Specialised Centre Zone Code</p>	<p>PO1</p> <p>The proposed development does not comply with Acceptable Outcome (AO) AO1.1, which requires ground floor level facades built to the street have: (b) tenancies no wider than 10 metres or vertical articulation which punctuates the façade at least every 10 metres; and (c) display space or transparent windows or doors for a minimum of sixty-five (65) per cent of their frontage area.</p> <p>Despite the non-compliance with AO1.1 (b), the proposed awning extending over the main entry point of the building on the eastern wall provides a horizontal break that punctuates the façade, creating a more-human scale feel by imposing a ceiling height.</p> <p>The non-compliance with AO1.1 (c) can be justified as the proposed building provides visible pedestrian access directly from the car-parking, which fronts the primary road frontage. The access into the building provided via double automatic doors, with the addition of two three-pane shop front windows, activates the front façade to the public space creating an accessible development for pedestrians and end users.</p> <p>Therefore, the proposed development is taken to comply with Performance Outcome 1 (PO1), as the proposed building has been designed to create a safe and pleasant, pedestrian-focussed environment.</p>							

	Landscaping Code	<p>PO11</p> <p>The proposed development does not comply with Acceptable Outcomes (AO) AO11.1 which requires that shade trees with a minimum height of two (2) metres are provided within car parking area at the following rates:</p> <ol style="list-style-type: none"> 1. in single sided, angle or parallel bays — one (1) tree per three (3) car parks; and 2. in double sided, angle or parallel bays — one (1) tree per six (6) car parks. <p>Due to the design of the carparks abutting the showroom building, site constraints do not permit planting of shade trees at one (1) per three (3) along the twenty-one (21) carparks on the buildings eastern wall.</p> <p>Despite the non-compliance, the proposed development has been conditioned to provide shade trees; one (1) tree per three (3) car parks to the carparks adjoining Yaamba Road. Furthermore, the proposed awning projecting over the footpath abutting the carparks on the eastern wall will provide shade from the western sun.</p> <p>Therefore, on this basis, the proposed development is taken to comply with Performance Outcome 11 (PO11) as the awning projecting over the carparks will help reduce heat storage.</p>
	Advertising Devices Code	<p>PO1</p> <p>The proposed development does not comply with Acceptable Outcome (AO) AO1.1 as the maximum total sign face area for the advertising devices exceeds both the boundary length and building elevation calculation methods used to determine maximum total sign face area.</p> <p>Despite the proposed development exceeding the maximum total sign face area, there is a substantive building setback of 21.150m and 23.450m from both the primary and secondary road frontage boundaries of Yaamba Road and Main Street, respectively. Furthermore, the proposed landscaping and street trees will provide a visual break to the proposed advertising devices.</p> <p>Therefore, the proposed advertising devices are taken to comply with PO1 as they are sited so they do not adversely impact on the visual amenity and character of the streetscape, nor will the devices impede vehicle or pedestrian movements or reduce safety levels given the substantive setbacks from both road frontage boundaries.</p>
