7. STATEMENT OF REASONS

Description of the development

Material Change of Use for a Warehouse (Bulk Cold Storage)	
Reasons for Decision	
<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	
<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Medium Impact Industry Zone Code; and • Works Code. 	
Compliance with assessment benchmarks	
<p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.</p>	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Medium Impact Industry Zone Code	<p>Performance Outcome 2</p> <p>The proposal does not comply with Acceptable Outcome (AO) 2.1 as the building setback to Wills Street is three (3) metres rather than the prescribed setback of six (6) metres. Based on the orientation of the building, and the development as a whole, Wills Street will represent a secondary street frontage with Johnson Street being the primary street frontage. Furthermore, the reduced setback to Wills Street will be softened by a three (3) metre wide landscape strip within the frontage area.</p> <p>The reduced building setback to Wills Street will not detract from the visual amenity of the streetscape and is therefore considered to be consistent with Performance Outcome (PO) 2 of the Medium Impact Industry Zone.</p>
Works Code	<p>Performance Outcome 1</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 1.1 which prescribes that new access driveways are not located within twenty (20) metres of an un-signalised road intersection in an industrial zone. Each of the two proposed access driveways are located approximately ten (10) to twelve (12) metres from the edge of the T-intersection between Johnson Street and Wills Street.</p> <p>The proposal was accompanied by a Traffic Impact Assessment which has been reviewed by Council officers. Despite the non-compliance with AO1.1, the access driveways are able to operate efficiently and safely and avoid conflicts with the intersection taking into account:</p> <ul style="list-style-type: none"> • the size of the parking area; • the volume, frequency and type of vehicle traffic; • the type of use and the implications on parking and circulation for example long-term or short-term car parking; • frontage road function and conditions; and • the capacity and function of the adjoining street system.

	The proposed development is therefore considered to be consistent with Performance Outcome (PO) 1 of the Works Code.
Works Code	<p>Performance Outcome 8</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 8.1 as no shade trees have been provided within or around car parking areas. The proposal provides for landscaping along the street frontage of Wills Street adjoining the parking spaces described as P1, P2 and P3 but does not provide shade trees.</p> <p>The entire site frontages of Wills Street and Johnson Street contain sewer main infrastructure approximately 2-2.5 metres deep which is also protected by a sewer easement. It is acknowledged that planting shade trees within the sewer easement is not practical given the location of the existing sewer infrastructure that loops around the road frontage. The roots of certain species of shade trees risk damaging the sewer infrastructure if planted too close within the easement.</p> <p>Although shade trees won't be provided the landscaping will still soften the visual impact of parking areas in accordance with Performance Outcome (PO) 8. The non-compliance is considered a minor conflict with PO8 which does not detract from the visual amenity and is outweighed by the requirements for protecting and maintaining the sewer infrastructure located within the easement onsite.</p>
Relevant Matters	
The proposed development was not assessed against any relevant matters outside of the matters prescribed by regulation.	
Matters prescribed by regulation	
<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 4.4); and • The common material, being the material submitted with the application.
