6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The development approval lapses at the end of the following periods:

- (a) For any part of the development approval relating to a material change of use – if the change of use does not happen within six (6) years after the approval starts to have effect, if not stated otherwise in the conditions of approval attached; and
- (b) For any other part of the development approval – if the development does not substantially start within six (6) years after the approval starts to have effect, if not stated otherwise in the conditions of approval attached.

Description of the development
Material Change of Use for a Food and Drink Outlet (drive-through facility) and Operational Works for Advertising Devices (one (1) freestanding sign and three (3) wall signs)
Reasons for Decision
<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks
<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Local Government Infrastructure Plan; • District Centre Zone Code;

- Access, Parking and Transport Code;
- Landscape Code;
- Stormwater Management Code;
- Waste Management Code; and
- Water and Sewer Code.

Compliance with assessment benchmarks

The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.

Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
District Centre Zone	<p>Performance Outcome (PO) 3 and 4</p> <p>The proposed development does not comply with Acceptable Outcomes (AO) 3.1, 4.1 or 4.3 because the proposed building is setback from the road frontage with no opportunity for streetscape awnings, and the car parking area is located forward of the proposed building. Where AO3.1, AO4.1 and AO4.3 requires buildings to be built to boundary and provided with an awning and car parking is to be located at the side and rear of the building.</p> <p>Despite this, the proposed development does create a pedestrian focused frontage and breaks down the façade because:</p> <ul style="list-style-type: none"> • A dedicated pedestrian path is provided from the development to the John Street footpath, ensuring the pedestrian entry location is clear and safe; • By the use of a variety of materials, textures and colours, the proposed façade is broken down into finer scaled components separating the drive through and restaurant areas and avoids large expanse of blank walls; and • Landscaping along the property boundaries will assist in softening the built form. <p>Therefore, the proposed development is taken to comply with Performance Outcome (PO) 4.</p>
	<p>Performance Outcome (PO) 24</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 24.1 because the development does not propose street trees and no conditions have been imposed to provide street trees, where AO24.1 requires streetscape treatments and street trees to be incorporated along the John Street road frontage.</p> <p>Despite this, the proposed development creates a visually cohesive area and encourages pedestrian amenity because:</p> <ul style="list-style-type: none"> • An existing footpath along the John street road frontage promotes pedestrian traffic, ensuring connectivity is achieved throughout the Gracemere District Centre Zone; and • A mix of landscaping types are proposed along the street frontage boundary to further soften the built form and enhance the streetscape. <p>In addition, the location of electrical infrastructure restricts street trees to be established within the John Street road reserve.</p> <p>Therefore, the proposed development is taken to comply with PO 24.</p>

Advertising Device Code	<p>Performance Outcome (PO) 1</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 1.2 because the proposed wall signs and free-standing sign do not meet the sign specific requirements in accordance with Table 9.3.2.3.2. Where freestanding signs are to have a maximum height of five (5) metres and wall signs are not to project above the external edges of a building.</p> <p>Despite this, the proposed advertising devices are integrated with the built form design and do not impact on the visual amenity of the streetscape because:</p> <ul style="list-style-type: none"> • The freestanding advertising device is integrated into the proposed landscaping to soften the appearance at street level; and • The proposed wall signs are unique to Zarraffas buildings and articulate the building design. <p>It is not anticipated that the proposed signs will impede vehicle or pedestrian movements and they do not resemble a road or traffic sign as the purpose is to advertise the approved Food and Drink Outlet on the subject site. Therefore, the proposed development is taken to comply with PO 1.</p>
Relevant Matters	
Not applicable to an assessable development application subject to code assessment.	
Matters prescribed by regulation	
<ul style="list-style-type: none"> • The Rockhampton Region Planning Scheme 2015 (version 4.4); • D/151-2023 – Reconfiguring a lot (one lot into two lots) • D/80-2023 – Operational Works for Access and Parking Works, Water Works, Stormwater Works, Site Works, Road Works and Sewerage Works • D/48-2022 – Material Change of Use for Food and Drink Outlet and Operational Works for Advertising Devices • The common material, being the material submitted with the application.

Maximum penalties for breaching the duty of care are listed in the Aboriginal cultural heritage legislation. The information on Aboriginal cultural heritage is available on the Department of Seniors, Disability Services and Aboriginal and Torres Strait Islander Partnerships website www.dsdsatsip.qld.gov.au

NOTE 2. General Environmental Duty

NOTE 3. Licensable Activities

Should an activity licensable by Rockhampton Regional Council be proposed for the development site, Council’s Environment and Public Health Unit must be consulted to determine whether any approvals are required. Such activities may include food preparation, storage of dangerous goods or environmentally relevant activities. Approval for such activities is required before ‘fit out’ and operation.

NOTE 4. General Safety Of Public During Construction

The *Work Health and Safety Act 2011* and *Manual of Uniform Traffic Control Devices* must be complied with in carrying out any construction works, and to ensure safe traffic control and safe public access in respect of works being constructed on a road.
