7. STATEMENT OF REASONS

Description of the development	
Material Change of Use for a Showroom and Office	

Reasons for Decision

- a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and
- b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.

Assessment Benchmarks

The development was assessed against the following assessment benchmarks:

- · Local Government Infrastructure Plan;
- Principal Centre Zone Code;
- · Flood Hazard Overlay Code;
- · Access, Parking and Transport Code;
- Landscape Code;
- Stormwater Management Code;
- · Waste Management Code; and
- Water and Sewer Code.

Compliance with assessment benchmarks

The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below

all of these with the exceptions listed below			
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark		
Principal Centre	Performance Outcome (PO) 5		
Zone	The proposed development does not comply with Acceptable Outcome (AO) 5.1 because the proposed building is setback 200 millimetres from the Alma Street road frontage where AO5.1 requires buildings to be built to boundary (0m setback). The proposed development also does not comply with AO 5.3 because car parking is located along the Alma Lane road frontage, where AO5.3 requires parking to not be located along the street frontage.		
	Despite this, the proposed development is designed appropriately to avoid blan walls oriented towards the street and creates a pedestrian oriented street frontage because:		
	 The front façade is well articulated with various materials, including windows, balconies and external finishes to break up to the development. 		
	 The main entrance, orientated towards Alma Street incorporate pedestrian entry points, a two (2) metre awning over the footpath and non-site parking within the road frontage. 		
	 Visitor parking and rear access is located from the secondary road frontage (Alma Lane) and is not visible from the primary road frontage; and 		
	 No changes to the location of the existing parking are proposed, with all existing access and parking arrangements maintained as part of the development. 		

Therefore, the proposed development is taken to comply with PO 5.

Performance Outcome (PO) 32

The proposed development does not comply with Performance Outcome (PO) 32 as no on-site landscaping is proposed and no acceptable outcome is nominated.

The proposed building will be constructed 200 millimetres from the front boundary with no accommodation possible for on-site landscaping. A two (2) metre wide awning over the pedestrian footpath will soften the appearance and provide shade for visitors.

Therefore, on balance the proposed development is taken to comply with PO 32.

Performance Outcome (PO) 33

The proposed development does not comply with Acceptable Outcome (AO) 33.1 because the existing hard stand area is not proposed to be covered, where AO5.3 requires hardstand areas between buildings to be covered with fabric sails or vegetated.

While the site, in its entirety is impervious, the existing car parking area is minimal (approximately 140 square metres) and adjoins the rear storage shed. The absence of shade trees and or covered fabric sails over the existing carparking area is not considered to create an additional heat island.

The non-compliance with AO33.1 and corresponding Performance Outcome is considered a low-level conflict and on balance the proposed development complies with the remainder of the Assessment Benchmarks.

Performance Outcome (PO) 34

The proposed development does not comply with PO 34 as no street tree landscaping is proposed and no acceptable outcome is nominated.

It is deemed impractical to condition street trees within the road verge due to obstructing electrical infrastructure and pedestrian footpath.

The non-compliance with PO 34 is considered a low-level conflict and on balance the proposed development complies with the remainder of the Assessment Benchmarks.

Access, Parking and Transport Code

Performance Outcome (PO) 5

The proposed development does not comply with Acceptable Outcome (AO) 5.1 as the development will provide five (5) onsite parking spaces and one (1) on street vehicle parking space, where AO5.1 requires a minimum of 14 vehicle parking spaces.

Despite this, the proposed development ensures that adequate parking spaces are provided on site to meet the demand that is generated from the development because:

- The site is located within the city centre, with on street vehicle parking spaces provided for local businesses.
- The development is not anticipated to generate a high demand of customers as the majority are via appointments only; and
- Staff parking is available within the storage shed, ensuring the existing number of parking spaces available onsite are solely for customers.

Therefore, the proposed development is taken to comply with PO 5.

Landscape Code

The proposed development does not comply with the Landscape Code as no landscaping is proposed for the development.

A response to the relevant provisions of the Zone Code relating to landscaping is provided above.

The non-compliances with the corresponding Landscape Code are considered low-level conflicts in the context of the re-development on the subject site and on balance the proposed development complies with the remainder of the Assessment Benchmarks.

Relevant Matters

Not applicable to an assessable development application subject to code assessment.

Matters prescribed by regulation

- The Rockhampton Region Planning Scheme 2015 (version 4.4); and
- The common material, being the material submitted with the application.
