7. STATEMENT OF REASONS

Description of the development	
Material Change of Use for a Community Use (Children's Educational Playgroup)	
Reasons for Decision	
<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	
<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Local Government Infrastructure Plan; • Strategic Framework; • Specialised Centre Zone Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	
The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Specialised Centre Zone	<p>Specialised Centre Zone Purpose</p> <p>The proposed development does not comply with the purpose of the Specialised Centre Zone, specifically overall outcomes 2 (a) and (b) and 3 (a). Despite this, the proposed development does not compromise the intended use of the</p>

	<p>Specialised Centre Zone because:</p> <ul style="list-style-type: none"> • The proposed use is small scale and does not propose an increase to the gross floor area of the site; • The proposed development provides an accessible community use that services the surrounding community; and • The proposed development compliments the surrounding land uses, providing opportunities for it to service existing customers within the precinct; and • No changes to the existing access and parking points are proposed, with the function of Yaamba Road being retained. <p>Therefore, the proposed development is taken to comply with the purpose of the Specialised Centre Zone Code.</p> <hr/> <p>PO21</p> <p>The proposed development does not comply with Performance Outcome (PO) 21 because the proposed development is for a Community Use, where PO21 requires development to not compromise the intended role of the centre.</p> <p>Despite this, the proposed development does not compromise the intended use of the Specialised Centre Zone because:</p> <ul style="list-style-type: none"> • The proposed Community Use is small scale and located within an existing building; and • The intended use services the local catchment by providing a service to the community. <p>Therefore, the proposed development is taken to comply with Performance Outcome (PO) 21.</p> <hr/> <p>PO28</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 28.1 because no landscaping or shade sails are proposed within hardstand areas, where AO28.1 requires hard surface areas to be interspersed with vegetation or covered sails.</p> <p>Despite this, the proposed development does avoid the creation of 'heat islands' because:</p> <ul style="list-style-type: none"> • The existing landscaping is retained along the full frontage of the site and along the rear of the building to break up the built form of the site; and • The proposed development does not increase the impervious area or gross floor area on the site, with the existing concrete areas being left unchanged. <p>Therefore, the proposed development is taken to comply with Performance Outcome (PO) 28.</p>
<p>Landscape Code</p>	<p>PO11</p> <p>The proposed development does not comply with Acceptable Outcome (AO) 11.1 because shade trees are not proposed as part of the development, where AO11.1 requires shade trees to be provided within car parking areas.</p> <p>Despite this, the proposed development ensures landscaping on site reduces the appearance of car parking areas because:</p> <ul style="list-style-type: none"> • The existing landscaping is retained along the full frontage of the site and along the rear of the building to break up the built form of the site; and • The proposed development does not increase the impervious area on the site with no room for shade trees to be located within the impervious area.

	Therefore, the proposed development is taken to comply with Performance Outcome (PO) 11.
Relevant Matters	
The proposed development was not assessed against any relevant matters outside of the matters prescribed by regulation.	
Matters raised in submissions
