### Items to Consider

Council is unable to assess applications until all paperwork is received. Delays in providing this information may result in the application lapsing and the booking being deemed invalid.

Upon receipt of the outstanding documentation your application will be reassessed and a decision made. Council will advise by written notice to the applicant to either grant the approval subject to conditions, or, to refuse to grant the approval.

Due to some public spaces being State Government leasehold land, Department of Resources **may** require Council to issue a trustee permit as part of the approval for your temporary event. This permit gives the applicant approval for use of the area outlined in the permit. Failure to secure a trustee permit could mean that your application is void due to it not meeting all approval conditions.

Vehicles are not permitted to drive onto the wooden boardwalk section of the Riverside Park Event Space. Limited access is permitted on some parks and sporting grounds, approval must be obtained for vehicles to be allowed on grounds.

## Temporary Event on Local Government Controlled Area/Road

Additional Health License may be required for the event, event organiser will be notified if a Short Term Food Business Licence is required.

Maritime Safety may need to be engaged when elements of the event are taking place on a watercourse/water way i.e. floating pontoons being erected, jet ski display.

An aquatic event is an organised onwater activity such as boat or swimming races, sailing regattas, water skiing competitions or fireworks displays that are likely to affect the normal operation of ships in the area of the event. If you want to hold an aquatic event you will need to obtain an aquatic event authority.

An authority is required so that Maritime Safety Queensland can manage the use of Queensland's waterways to ensure that all users, whether recreational or commercial, organised or social, have equal and safe access to its waters.

Event organisers must ensure safety is paramount for events. If there is a risk of serious injury to participants, the event is to be suspended until it is considered safe to continue.

### Information Notice – Electrical

#### Council Obligations

Due to provisions within the *Electrical Safety Act 2002*, Council must be proactive in ensuring the safe use of electricity when allowing external users to access electrical power outlets in parks and other Council facilities. Council is not only responsible for providing safe outlets, it is also obliged to ensure that users comply with the Australian Standard 3002:2008 Electrical Installations-Shows and Carnivals, the *Electrical Safety Regulations 2013* and the Codes of Practice 2013 in the area between the power outlet and the user's worksite. Council has an obligation to ensure the following:

1. Council will ensure that construction of all power outlets and power boxes complies with Australian Standard 3002:2008 Electrical Installations-Shows and Carnivals, and AS/NZS 3000:2007 Wiring Rules.
2. Council will carry out yearly inspections by a licensed electrical worker to ensure that outlets remain compliant with the aforementioned relevant standards.

#### Approval Holder Obligations

Approval Holders who access Council's electrical power outlets in parks and other Council facilities must adhere to Australian Standard 3002:2008 Electrical Installations-Shows and Carnivals and ensure the following:

1. All electrical equipment is tagged and tested;
2. Avoiding mechanical and other damage to electrical leads; and
3. Keeping electrical leads out of the reasonable reach of people and/or vehicles.

Council strongly encourages event organisers to engage an electrician when arranging events with a large number of electrical needs.

In addition to the above it is recommended that separate toilet and hand washing facilities be provided for food handlers and a sanitary convenience bin provided per female toilet.

The Building Code of Australia also recommends:

- At least one unisex toilet for patrons with a disability at each group of toilet facilities; and
- One urinal space = 0.6m.

### Assessment Guide for the Provision of Waste Facilities

**General rubbish** – bins must be placed around the entire event site and close to areas where food is being sold or consumed.

**Recyclable items** – clearly identified recycle bins must be placed side by side with general rubbish bins (not back to back).

**Food providers and stall holders waste** – food providers and stall holders should have bins for their own waste disposal. These bins should be placed well away from any food consumption, preparation or storage areas.

Council recommends (as a guide) the minimum number of bins for attendee use (not to include existing bin infrastructure), as follows:

1 x 240L bin per 100 attendees – if no food or drinks served/sold

2 x 240L bins per 100 attendees – if food or drinks served/sold

2 x 240L recycle bins per 100 attendees

1 x 3m front load skip bin for greater than 1,000 attendees

Council can supply 660L or 1100L bulk bins as well as signage for CRS (10c Containers for Change) (*organiser to arrange for collection and sorting*).
